Introduction:

In an industry where projects can vary markedly in size, scope and complexity, Independent Mechanical Industries ensures that every client receives the highest quality work, delivered on-time and in the safest manner possible, through innovative planning and strict execution. Founded in 1923, Independent Mechanical Industries is a full service mechanical contractor specializing in the installation, repair, and maintenance of boilers & process piping for clients in the industrial and commercial sectors. From capital projects, to critical plant outages and turnarounds, to routine maintenance, Independent Mechanical Industries consistently delivers on its rigorous safety, schedule, cost and quality standards.

Sectors Served:

Petrochemical Refining

Power Generation

Water & Wastewater

Steel Manufacturing

Chemical Refining

Services

For the best possible results on every job, Independent Mechanical Industries combines progressive management, aggressive scheduling and the kind of forward thinking that is required to safely deliver our clients projects. Our project teams are capable of providing a full complement of construction services, including engineering and design. In addition to self-performing all work within our areas of expertise, Independent Mechanical Industries has developed relationships with key subcontractors in order to provide clients with total turn-key services.

Independent Mechanical Industries is capable of serving its clients in a variety of roles from an EPC Contractor to a Subcontractor

Areas of Expertise:

- Process Piping Systems**
- Power Boilers**
- Package Boilers**
- Heat Recovery Steam Generators**
- Ductwork, Breeching & Stacks**
- Pressure Vessels & Tanks**
- Condensers & Exchangers**
- Precipitators & Baghouses**
- Fans, Blowers and Air Heaters**
- Pumps**
- Valves**

Services:

- Capital Projects**
- Outages**
- Turnarounds**
- Rehabilitations**
- Retrofits**
- Maintenance**
- Repairs**

Code Work

Independent Mechanical Industries holds five (5) Certificates of Authorization to perform various types of Code Work. These Certificates of Authorization validate that Independent Mechanical Industries provides the highest level of quality and has had its Quality Control Systems and work procedures audited by the American Society of Mechanical Engineers (ASME) and The National Board of Boiler & Pressure Vessel Inspectors (NBBI). The code symbols that Independent Mechanical Industries is authorized to apply to its Code work are:

-  — **Repair and/or alteration of boilers, pressure vessels, and other pressure-retaining items**
-  — **Fabrication and assembly of pressure piping**
-  — **Assembly of power boilers**
-  — **Manufacture of pressure vessels**
-  — **Fabrication, installation, and inspection of direct fired steam heating, hot water heating, and hot water supply boilers**

In addition, Independent Mechanical Industries holds a Certificate of Authorization to apply the (NB) mark and register code items it has fabricated with the National Board.

Safety

At Independent Mechanical Industries safety is Job #1. Our employees receive the best safety training and equipment. This ensures that they are fully equipped to identify, plan for, and overcome the challenges presented by the hazards encountered in the work we perform. Independent Mechanical Industries participates in PICS and ISNetwork third-party verification programs for its Health & Safety Policies, Training Policies and Safety Statistics. These companies review and verify our health and safety information to ensure compliance with many of our industrial clients' individual requirements.
