Independent Mechanical Industries Awarded Contract for Mechanical Work at Union Station

May, 2010

Chicago, IL - Kiewit Western Company recently awarded Independent Mechanical Industries, Inc. (IMI) a contract for mechanical work at Union Station. Under the contract, IMI will perform utility piping upgrade work in the rail yard, and HVAC installation in the various ancillary facilities that serve the station. The work is scheduled to begin immediately and be complete by the end of 2010.

The work being performed by IMI is part of a larger overall station construction, renovation, repair and upgrades project pursuant to the American Recovery & Reinvestment Act of 2009/10 (ARRA). The overall project includes track and ballast replacement, replacement of track lighting, installation of new track switching machines and heater systems, installation of CCTV & security systems, and general upgrades & renovations in the ancillary facilities. Originally opened on May 16, 1925, Union Station in Chicago is the 4th busiest Station in the Amtrak system, serving over 3,080,000 passengers per year.

Independent Mechanical Industries, Inc. provides industrial & process piping, heat & power generation, HVAC, and contract maintenance & service work to clients in Illinois, Northern Indiana, and Southern Wisconsin. Originally founded in 1923, Independent Mechanical Industries is a third generation, family owned firm that prides itself on its ability to perform projects of all sizes and complexity.
