

Rochelle – Ethanol Plant Boiler

Owner
Illinois River Energy,
LLC

Client
J.P. Cullens & Sons

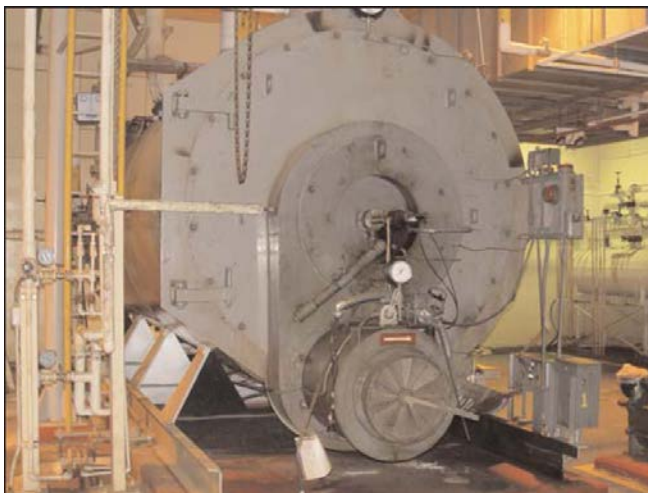

Location
Rochelle, IL

Architect

IMI contract amount
\$418,000

Completion
2008

IMI performed the field erection of a new boiler, ductwork, economizer, windbox/burner assembly, exhaust preheater and associated platforms, supports, etc for a new 50,000 GPD ethanol plant. In addition, IMI installed the thermal oxidizer as well as a 10,000 BTU cook water heater assembly. IMI designed all of the pipe supports and drain piping as well as the fuel rack assembly.
