U.S. Steel – Boiler Facility

Owner
United States Steel Corporation

Client
United States Steel Corporation

Location
East Chicago, IN

Architect/Engineer
IMI

IMI contract amount
\$4,166,750

Completion
February 2011

IMI received a Design/Build contract for a new Boiler Facility at the Gary Works – East Chicago Tin facility. The new Boiler Facility is designed to provide 150,000 lb/hour of steam to the plant with a natural gas fired, water tube boiler manufactured by Wabash Power Equipment Company. U.S. Steel selected IMI based on their expertise and ability to deliver a custom solution to their needs.
